SEATING & TABLES FOR A BETTER LIFE

Since 1965 JMS - J.Moreira da Silva & Filhos, SA has written an important page in the history of the furniture industry.

As a market leader in Portugal for the manufacturing of chairs and tables, we have secured a prominent position, with an increasing dominance in international markets, being associated with numerous major projects through our renowned worldwide supply partners.

JMS has constantly evolved, based on our manufacturing knowledge and traditional skills acquired over the past half century, combined with modern technology, we have become a synonymous brand, recognized for design and quality.

This evolutionary process gave rise to SIANA, the newborn brand of JMS group, with the aim of entering the Healthcare market.

The valuable know-how, the high quality of the raw materials, the use of highly advanced sophisticated production systems and the quality certifications are a strong support to the brand.

Each piece of furniture is designed and developed under the highest quality standards, addressed to a demanding market, such as the Healthcare. The design and ergonomics are the key to the success of the brand.

Adapting SIANA's essential features to the specificities of this market segment is JMS's mission.
